에비스바시 역사를 즐겨보세요 Enjoy the history of Ebisubashi

이 거리의 북쪽에는 도톤보리강이 있습니다. 거의 400년전, 마을 사람들이 운하를 만들고, 그 주변에 극장을 만들어서 변화가로 발전했습니다. 마을사람들은 다리를 만들고, 상점의 번영을 바라며 매년 1월 10일날 이마미야에비스신사에 참배했습니다. 에비스바시 상점가라는 이름의 유래는 바로 이 다리에서 따온 것으로 관광코스도 유명합니다. 이 거리의 동쪽으로는 호젠지라는 사원이 있고 경내는 먹거리가 즐비하여 많은 관광객의 사랑을 받게 되었습니다.

On the north side of the shopping district in the Dotonbori river, This is actually a canal that the townspeople constructed about 400 years ago. The downtown area, and notably its theaters, then developed around it. The townspeople needed to cross the canal to visit the Imamiya Ebisu shrine on January 10 of every year, where they would pray for prosperity in their business. So, they built a bridge that became known as "Ebisubashi"(Ebisu bridge). Our shopping district is named after this bridge, and the "Ebisubashi" itself has gone on to become a famous sightseeing spot. On the east side of the shopping district is a temple called "Hozenji". Inside the temple grounds are restaurants that attract many tourists.

Ebisubashi-Suji has a number of long-established stores that have been around for 60 to 150 years. These stores are very particular about the materials they use and produce most of their products by hand, drawing on their highly developed skills to offer unique products. A product from one of these stores would make an excellent souvenir of Osaka.
